# WIRELESS REVOLUTION

**Don't be tied down by wired tape switches.**

**Go Wireless** - evolve into the apex gunfighter with the KT8103 Gen II series of wireless lasers and the TX/TZ series of wireless remote pressure switch equipped flash lights.

## Light and Laser Features

- All of the AimShot wireless lights and rifle lasers are waterproof and designed specifically for tactical/weapons mounting.
- Each light and laser comes with a full compliment of accessories- quick release mounts, wireless pressure switch, and batteries.
- The wireless remote provides additional redundancy compared to traditional pressure switches. In a traditional system if you break a cable or the pressure switch becomes inoperable, the device stops functioning. With the AimShot system, you have the wireless remote control as well as the primary on/off button on the back of the light/laser for extra security.
- The wireless remote will turn the light or laser on with the press of any of the buttons.

## Wireless Remote Functions

- **Light wireless remote functions:** Press any button on the remote to turn the light on. Once the light is on, the first button turns the light off, while the other two allow the user to adjust the light output in stepless levels from 5% to 100% output. When turned off and back on, the previous output setting is remembered and utilized. Press button one to turn off the light, but pressing any button will activate the light again.
- **Laser wireless remote functions:** The wireless remote will turn the laser on with the press of any of the buttons. Button one turns the laser on and off, while the other two are designed for momentary activation- press the button to turn on the laser, and release to turn off. The first button leaves the unit on for hands free operation- press and release to turn on, and press again to turn it off.
- **Pairing a new remote:** quick and simple. Press and hold the master button on the unit and the remote at the same time and within seconds they are paired together.

**When compromise free equipment is necessary.**

All wireless lasers and tactical lights are waterproof, encased in black anodized 6061 T6 aluminum housings, and include quick release hardware.

## TX890 KIT

(Available in white or infrared LEDs)

- Evolved:** Remote capable of adjusting light output (5%-100%) and redundant switches for increased reliability
- Confident:** Silicon grip for sure handling
- Rugged:** Waterproof black anodized 6061 T6 aluminum housing
- Bright:** Cree LED delivering 550 lumens (FL1 testing standard)
- Compact:** Only 44mm x 39mm x 30mm
- Quick:** Quick-release from weapons to hand held in seconds without tools.
- Lightweight:** 5.5 oz.
- Tireless:** 1-6 hours continuous run time on 2 CR123A batteries (included)

Flash Light Mount

Picatinny Quick Release

Wireless Remote

## TX890 Lights

Modeled after the AimShot TX860 light but with additional functionality, we have paired the lights with our new wireless rail mounted pressure switch. As with all AimShot tactical lights, the TX890 comes as a complete kit with everything needed to be fully functional out of the box. Tactical light, quick release and hard mount for picatinny rails, batteries and of course the revolutionary wireless rail mounted pressure switch.

Two versions are available

- 550 lumen CREE bright white LED for traditional lighting needs.
- **Infrared (IR) LED (850nm)** version for use with Night Vision gear. Invisible to the naked eye, it works with all the latest NVG.

Both models have fully adjustable power output. Instead of only having low/medium/high you now have the capability of infinite adjustment levels on the fly to custom tailor your output to your needs. Running NVG inside a house and don't want to wash out all the details, now it's easy to adjust the output.

Many innovations were developed to provide the best heat dissipation as well as maintaining waterproofness.

**Features that no other tactical light can offer at a price that can't be beat!**

- HEAT DISSIPATION
- HEAT TRANSFER MEDIA
- O-RINGS FOR WATERPROOFING

THE FIRST WIRELESS WEAPON LIGHT

ALL AIMSHOT FLASHLIGHTS ARE DESIGNED FOR USE ON A WEAPON. THEY ALL ARE BUILT TO THE HIGHEST STANDARDS WITH: MACHINED ALUMINUM REFLECTORS, PROTECTED TAIL CAPS AND HIGH GRADE ALUMINUM ALLOY BODIES FOR MAXIMUM PROTECTION.

# TZ980 Variable Focus Flashlight

(Available in white and infrared)

- Evolved:** Remote capable of adjusting light output (5%-100%) and redundant switches for increased reliability
- Confident:** Silicon grip for easy handling
- Versatile:** Adjustable focusing bezel ring (10-40 ft. pattern at 100 ft.)
- Quick:** Quick-release from weapons to hand held in seconds without tools.
- Bright:** Cree LED delivering 450 lumens
- Lightweight:** 10.3 oz.
- Tireless:** 1-6 hours continuous run time with 2 CR123A batteries (included)
- Rugged:** Constructed from black anodized 6061 T6 aluminum, waterproof
- Rechargeable:** works with rechargeable 18650 batteries (not included)
- Portable:** Belt-mounted carry pouch included

**PATENT  
PENDING**

## Included Accessories

### Wireless Remote

### Carry Pouch

### Flash Light Mount

# TZ980 Adjustable Beam Lights

Designed specifically for hunters, the new Adjustable Beam TZ980 flashlight is combined with our new wireless rail mounted pressure switch. As with all AimShot lights, the TZ980 comes as a complete kit with everything needed to be fully functional out of the box. Variable focus light, quick release and hard mount for picatinny rails, batteries and of course the revolutionary wireless rail mounted pressure switch.

### Two versions are available

- 550 lumen CREE bright white LED for traditional lighting needs
- Infrared (IR) LED (850nm) version for use with Night Vision gear. Invisible to the naked eye, it works with all the latest NVG.

Both models have fully adjustable power output. Instead of only having low/medium/high you now have the capability of infinite adjustment levels on the fly to custom tailor your output to your needs. The IR version works great with Night Vision gear, allowing you to search for your prey, then zoom in for precise targeting and identification.

Many innovations were developed to provide the best heat dissipation as well as maintaining waterproofness. In the past you could not have an adjustable beam light that was waterproof. With the patented design from AimShot you can have adjustable beam pattern AND a waterproof design. The TZ980 lights are compatible with rechargeable 18650 batteries as well as the CR123A batteries. Fully adjustable beam pattern, adjustable light output, waterproof, and wireless remote.

**It's every hunters deam and every varmint's nightmare!**

ALL AIMSHOT FLASHLIGHTS ARE DESIGNED FOR USE ON A WEAPON. THEY ALL ARE BUILT TO THE HIGHEST STANDARDS WITH: MACHINED ALUMINUM REFLECTORS, PROTECTED TAIL CAPS AND HIGH GRADE ALUMINUM ALLOY BODIES FOR MAXIMUM PROTECTION.

# RECHARGEABLE

Don't try to replace batteries during an emergency.

# REVOLUTION

Our Micro-USB chargeable systems are the easiest to maintain.

## KT8106 RECHARGEABLE GREEN LASER/ LIGHT COMBO

- Efficient:** Micro-USB charging port with included cord and USB wall Plug, charge anywhere!
- Adaptable:** Mounts to any length Picatinny or weaver rail with included hardware
- Customizable:** Toggle through 5 modes (Light, Strobe, Laser, Light+Laser, Strobe+Laser)
- Powerful:** <5 MW, 532 NM green laser and 100 lumen light with up to 4 hr. continuous operation
- Precise:** Windage and elevation controls with ambidextrous on/off
- Functional:** User replaceable Lithium Ion battery pack. Inexpensive to have spares or replace
- Tough:** Carbon fiber reinforced nylon polymer with black anodized 6061 T6 aluminum alloy- water resistant
- Light weight:** 1.8 oz.
- Compact:** 45mm x 29mm x 30mm

Included micro USB retractable charging cord and wall outlet

### Included Mounting Hardware

## TXP RECHARGEABLE FLASH LIGHT

- Efficient:** Micro-USB charging port with included cord and USB wall plug, charge anywhere!
- Quick:** Mounts directly to most rail systems without bolts or tools
- Powerful:** 130 lumens with 1-4 hour of continuous run time (dependent on output settings)
- Light weight:** Nylon carbon fiber composite housing weighs less than 2 oz.
- Adaptable:** The light is adjustable front to rear on the mount to fit short or long rail systems.
- Options:** 3 modes (High, Strobe, Low), ambidextrous buttons
- Light weight:** 1.8 oz.
- Compact:** 63mm x 25mm x 36mm

Included micro USB retractable charging cord and wall outlet

Adjusted to fit closest to trigger housing on full size pistol

Adjust light front to rear on the mount to fit compact pistols that have very short picatinny rails

# CLASSIC RIFLE LIGHT KITS

WH

## TX850 KIT

- Powerful:** 400 lumens
- Smart:** Comes with both standard on/off tail cap and rail mounted pressure switch as well as a picatinny rail light mount
- Sturdy:** Comes with hard mount Picatinny hardware
- Portable:** 37mm x 141mm and 5.3 oz..
- Endurance:** 2.5-6 hour run time on two included CR123A batteries
- Durable:** Waterproof black anodized 6061 T6 aluminum alloy
- Adaptable:** High, strobe and low settings

WH

## TX860 550 LUMEN KIT

- Powerful:** 550 lumens
- Endurance:** 1-10+ hrs. run time on two included CR123 batteries
- Portable:** 35mm x 143mm and 5.35 oz..
- Sturdy:** Comes with quick-release and hard mount Picatinny mounts
- Smart:** Comes with standard on/off tail cap and rail mounted pressure switch
- Durable:** Waterproof black anodized 6061 T6 aluminum alloy
- Adaptable:** High, medium and low settings

GR

## TX 870G GREEN KIT

- Powerful:** 350 lumens
- Endurance:** 2+ hrs. run time on two CR123 batteries
- Portable:** 8mm x 155mm and 7.4 oz..
- Hunting focused:** Green light is less alarming to wildlife
- Night Sight:** Green light disturbs low light vision less than white light
- Smart:** Comes with standard on/off tail cap and rail mounted pressure switch
- Sturdy:** Comes with hard mount Picatinny hardware and batteries
- Durable:** Waterproof black anodized 6061 T6 aluminum alloy
- Adaptable:** High, strobe and low settings

WH

## TX 950 KIT

- Powerful:** 450 lumens with a large reflector for better focus at distance
- Endurance:** 2.5-6 hours run time on three CR123 lithium batteries
- Smart:** Comes with both standard on/off tail cap and rail mounted pressure switch
- Sturdy:** Comes with hard mount Picatinny hardware
- Portable:** 5mm x 180mm and 11.5 oz..
- Durable:** Waterproof black anodized 6061 T6 aluminum alloy
- Adaptable:** High, strobe and low settings
